

Enter Messages

You can set custom welcome/enter messages with the [command:claimflag EnterMessage message] command. An Enter Message is a custom greeting that appears in chat when a player cross into the claim

The placeholder %owner% for owner's name and %name% for the player's name entering can be used in the message.

You can use colored messages, with the "minimessage" formatting:

- <gold>Hello this is my vanilla message!
- <#ED855D>Hello this is my hexcode message!
- <gradient:#ED855D:#BDB07B:#91BD7E>Hello this is my gradient message!
