# Staff Ranks

:Staff\_JrMod: @JrMod

“ JrMods are our chat moderators! They answer questions, moderate chat, and help us maintain a friendly environment on the server.

:Staff\_Mod: @Mod

“ Mods are a step up from JrMod and receive more responsibilities while still handling the same tasks that JrMods do! They moderate chat with better tools, look into hackers, check for XRAY, and more.

:Staff\_Mod: @Mod+

“ Mod+ are Mods with a few more permissions added on! They are better equipped with tools to help assist claim disputes, and are kind of like a mini SrMod in terms of abilities.

:Staff\_SrMod: @SrMod

“ SrMods are the guiding hands of our staff team! They help us train new staff, look into claim issues, handle situations to the best of their abilities if an Admin is not available, and more. SrMods still handle the same tasks as JrMods and Mods, just with some extra responsibilities added on top.

:Staff\_Admin: @Admin

“ Oversees the staff team and server as a whole, while making the final say regarding situations that may arise. Part of the management team, helps with upkeeping the quality of the server and happiness of the community!

:Staff\_Owner: @Owner :Staff\_Owner~1: @Owner

“ Works on updates, content, and just about anything relating to CozySMP!
